

## **FE Industrial Visit to Palghar: Report**

The Industrial Visit for the year 2023 was conducted in two batches. One batch of students visited industries in Silvassa over a two-day period, while the second batch visited Palghar on 20th of May 2023.

50 students visited Palghar for the one-day industrial visit, accompanied by 4 staff. The group boarded the bus at 7:00am from the SFIT front gate, where the attendance was taken. Breakfast was served at the Silent Hill Resort, Palghar. After this, the group continued on their visit to the industries.

The students were scheduled to visit two industries, namely KLT Automotives and Remi Group of Industries, both situated at Palghar. At Remi Industries, the group was first introduced to the In-charge, Mr. Shashinath Mishra who explained to the students that theirs was an agitator producing industry and briefed them about the various services that they provide. Mr. Mishra, along with his assistant Mr Makwana, then divided the students into 2 groups and took them on a tour around the industry. They explained the various machinery and how it works, including how raw materials are processed and sent out as finished products to other industries. Both the tour guides, along with the mechanics readily clarified the doubts asked by the students. The entire tour completed in 1 hour, after which the staff and students thanked the team for their support.

The group then continued on their journey to KLT. However, on reaching KLT industry, the staff were informed that the visit could not come through due to an unforeseen client meeting that KLT had to entertain. The buses then rerouted and returned to Silent Hill Resort where lunch was provided.

Post lunch, students were given time off to enjoy themselves at the swimming pool or explore the scenic beauty of the resort. They regrouped by 4:30pm and left the resort by 5:00pm. Students staying en route to the college were permitted to get off at stops closer to their residence. The buses reached SFIT by 8:30pm.
