IT for Society: A Colloquium

January 17, 2020

Organized by

Department of Information Technology

NBA accredited upto 30/6/2020)

INFT department of SFIT successfully conducted I.T for society: Colloquium on 17th and 20th January, 2020. It was convened by Dr. Joanne Gomes with coordinators Dr. Nazneen Ansari and Mr. Vaibhav Kala. This year's Colloquium theme was I.T. for Security. Being a state level event there were around 400+ participants consisting of S.E., T.E. and B.E. students of SFIT as well as other colleges.

On 17th January the inauguration of Colloquium was done at the hands of Ms. Khusbu Jain, Advocate –Supreme Court, Mumbai. Colloquium comprised of coding competition for SE students, project competition for TE students and poster competition for BE students.

The coding competition for SE students was based on Java Programming language and there was a positive participation of students for the same. There were some very impressive projects showcased by TE students in the IOT/InP project competition based on the colloquium theme where some participants were from other colleges as well. Lot of enthusiasm and energy was visible in the BE poster competition where BE students presented their BE projects beautifully through posters. The posters were evaluated by experts from SFIT as well as by SFIT alumni. There was an overwhelming participation of 300 odd students for the events.

The Valedictory function was held in respective venues after the prize distribution for coding, poster and project competition winners.

At the outset, the colloquium was a big success and enriching experience for the participants.

Prepared by Ms. Alvina Alphonso.
