Dear Neil:

Congratulations! It is with great enthusiasm that I offer you admission into the Master of Science program at the School of Business at Stevens Institute of Technology for the Fall 2021 semester. Each year, our admissions team sees more applications from an increasingly stronger pool of prospective students. After reviewing your impressive credentials, it's clear you've got what it takes to be a star in the Information Systems program at Stevens.

Because of your outstanding profile, the admissions committee has recommended you for a graduate scholarship in the amount of $12000. This highly selective scholarship is offered to only the most highly qualified prospective students, and you should be proud to count yourself among this select group.

Stevens isn't a business school for everyone. Not only do you need the right academic excellence, you need a deep appreciation for technology and its role in solving business problems. It's clear to me that you're the kind of creative, critical thinker who will thrive at a school where new technology isn't just taught — it's invented, refined, shared and applied.

For more details on your admission and to confirm or decline this offer, please read the information on the following page. Our admissions office as well as your advisors will be in touch with you shortly to ensure you have everything you need to enroll at Stevens for the upcoming semester. Until then, please share this happy news with those who have supported your journey so far.

I'm so excited to welcome you to the Stevens community. I'm confident that you'll do great things here that will change the way you see the world and prepare you for an incredibly rewarding career.

Dear Priyank Jethva,

It gives me great pleasure to inform you that you have been admitted to the Graduate School of Syracuse University. The faculty in Information Management has recommended that you be admitted for Fall 2019 as a Master of Science student. When communicating with the University about your admission, please refer to your unique, nine-digit Syracuse University Identification number (SUID): _____.

We have created a web gateway for newly admitted graduate students that addresses pertinent enrollment information, some of which may require immediate action on your part. I encourage you to consult it as soon as possible. You will find this gateway at the following web address: http://www.syr.edu/gradschool/em/current_gradchecklist.html.

The credentials that you have presented show your qualification to undertake study and research that will be vigorous, stimulating, and, we trust, rewarding for you. Congratulations and welcome to our graduate community, which has been a vital part of the university since its founding in 1870.

By the end of your first semester of study, you must submit an official transcript from your undergraduate institution which must bear the appropriate signatures and seal of the institution that issued it and must be received by Syracuse University in a sealed envelope directly from that institution. Unsealed documents which may have been in the hands of students are not considered official. After completion of the first semester of graduate study, the Graduate School may prohibit further registration for any student who has not met this requirement. The hold on registration will only be released when this requirement has been met. If you are a domestic student, in accordance with federal Title IV regulations, financial aid will be disbursed to the student account when all financial aid and admission requirements are met, including receipt of official degree bearing transcripts. Please refer to http://www.syr.edu/gradschool/em/current_gradchecklist.html for additional information.

Sincerely,

Dear Nikhil Harjibhai:

Congratulations! It is my pleasure to offer you admission into the Computer Science program at Stevens Institute of Technology.

Since 1870, Stevens has welcomed students who combine a passion for learning with a desire to apply their training to improve the world around them. Upon thorough review of your impressive credentials, it's clear you would be an excellent fit for our master's programs, which prepare students for leadership roles with innovative organizations around the globe.

At Stevens, we call ourselves "The Innovation University●." Dear Kavit Girish:

Congratulations — you're in!

Each year, our admissions team sees more applications from an increasingly stronger pool of prospective students. After reviewing your impressive credentials, it's clear you've got what it takes to be a star in the Information Systems program at Stevens.

Stevens isn't a business school for everyone. Not only do you need the right academic excellence, you need a deep appreciation for technology and its role in solving business problems. It's clear to me that you're the kind of creative, critical thinker who will thrive at a school where new technology is just taught — it's invented, refined, shared and applied.

Our admissions office as well as your advisors will be in touch with you shortly to ensure you have everything you need to enroll at Stevens for the 2019 semester. Until then, please share this happy news with those who have supported your journey so far.

I'm so excited to welcome you to the Stevens community. I'm confident that you'll do great things here that will change the way you see the world prepare you for an incredibly rewarding career.

Sincerely,

Dr. Gregory Prastacos

Dear Vedika Shenoy,

It gives me great pleasure to inform you that you have been admitted to the Graduate School of Syracuse University. The faculty in Information Management has recommended that you be admitted for Fall 2018 as a Master of Science student. When communicating with the University about your admission, please refer to your unique, nine-digit Syracuse University identification number (SUID): 572148311.

We have created a web gateway for newly admitted graduate students that addresses pertinent enrollment information, some of which may require immediate action on your part. I encourage you to consult it as soon as possible. You will find this gateway at the following web address: http://www.syr.edu/gradschool/em/current_gradchecklist.html.

The credentials that you have presented show your qualification to undertake study and research that will be vigorous, stimulating, and, we trust, rewarding for you. Congratulations and welcome to our graduate community, which has been a vital part of the university since its founding in 1870.

By the end of your first semester of study, you must submit an official transcript from your undergraduate institution which must bear the appropriate signatures and seal of the institution that issued it and must be received by Syracuse University in a sealed envelope directly from that institution. Unsealed documents which may have been in the hands of students are not considered official. After completion of the first semester of graduate study, the Graduate School may prohibit further registration for any student who has not met this requirement. The hold on registration will only be released when this requirement has been met. If you are a domestic student, in accordance with federal Title IV regulations, financial aid will be disbursed to the student account when all financial aid and admission requirements are met, including receipt of official degree bearing transcripts. Please refer to http://www.syr.edu/gradschool/em/current_gradchecklist.html for additional information.

Sincerely,

Peter A. Vanable, Dean of The Graduate School

Dear Naina Bharadwaj,

It gives me great pleasure to inform you that you have been admitted to the Graduate School of Syracuse University. The faculty in Computer Science has recommended that you be admitted for Fall 2017 as a Master of Science student. When communicating with the University about your admission, please refer to your unique, nine-digit Syracuse University identification number (SUID): 810909672.

We have created a web gateway for newly admitted graduate students that addresses pertinent enrollment information, some of which may require immediate action on your part. I encourage you to consult it as soon as possible. You will find this gateway at the following web address: http://www.syr.edu/gradschool/em/current_gradchecklist.html.

The credentials that you have presented show your qualification to undertake study and research that will be vigorous, stimulating, and, we trust, rewarding for you. Congratulations and welcome to our graduate community, which has been a vital part of the university since its founding in 1870.

By the end of your first semester of study, you must submit an official transcript from your undergraduate institution which must bear the appropriate signatures and seal of the institution that issued it and must be received by Syracuse University in a sealed envelope directly from that institution. Unsealed documents which may have been in the hands of students are not considered official. After completion of the first semester of graduate study, the Graduate School may prohibit further registration for any student who has not met this requirement. The hold on registration will only be released when this requirement has been met. If you are a domestic student, in accordance with federal Title IV regulations, financial aid will be disbursed to the student account when all financial aid and admission requirements are met, including receipt of official degree bearing transcripts. Please refer to http://www.syr.edu/gradschool/em/current_gradchecklist.html for additional information.

Sincerely,

Peter A. Vanable, Dean of The Graduate School
